# Geography KS3: Year 7

CARDINAL  
NEWMAN  
CATHOLIC SCHOOL

**INTO AFRICA (Wider World)**  
Revision of key skills in yr 7.  
Investigation skills.  
Challenging stereotypes

**SUMMER 3:2**

**Geography of Crime**  
Using GIS to map crime  
Causes and effects  
Mapping Crime  
International crime study

**SUMMER 3:1**

**Population Explosion**  
Population trends  
Data analysis and interpretation  
China's 1 Child Policy-  
Population pyramids

**SPRING 2:2**

**Ecosystems**  
Parts of an ecosystem  
Comparing different global ecosystems  
Threats to ecosystems(natural & Human)

**SPRING 2:1**

**A Watery World**  
The water cycle, features of a drainage basin.  
Physical processes  
River landforms  
Interpreting hydrographs

**AUTUMN 1:2**

**Being A Geographer**  
OS Mapskills  
Using atlases  
Using key terms to describe places  
Graphicacy skills

**AUTUMN 1:1**

**OUR LEARNING  
JOURNEY**

# Geography KS3: Year 8

CARDINAL  
NEWMAN  
CATHOLIC SCHOOL

## The Middle East (Wider World)

Data analysis and interpretation.  
Global importance.  
Importance of oil, alternatives. Summary of skills learned in Years 7/8

SUMMER  
3:2

## Geography of Conflict

Causes of conflict.  
Types and scales of conflict.  
Literacy skills.  
Case study examples  
Location and resolution

SUMMER  
3:1

SPRING  
2:2

Climate Change  
Main causes (human & Natural).  
Impacts – national and global.  
Reduction strategies

## Explosive Earth

Internal layers of the Earth  
How/why plates move  
Sequencing  
Comparing impacts  
Primary & secondary effects . Use of case studies

SPRING  
2:1

Our Changing Country  
Investigating trends over time.  
Providing reasons for change  
Globalisation & its impacts

AUTUMN  
1:2

AUTUMN  
1:1

## Crumbling Coasts

Linking physical processes to landforms.  
Management of coasts  
Case study analysis  
Evaluation skills

# OUR LEARNING JOURNEY

# Geography KS4: Year 9

CARDINAL  
NEWMAN  
CATHOLIC SCHOOL

**Paper 2 – UK Geographical Issues-  
The UK's physical landscape. – River  
processes and pressures-**  
Use OS maps to investigate river  
landscapes  
Physical/ human factors  
Storm hydrographs  
Case study – Sheffield floods  
Flood management

**SUMMER  
3:2**

**Paper 2 – UK Geographical  
Issues- The UK's physical  
landscape.-River processes  
and pressures**  
Geology and past processes  
influencing UK landscape  
variety of river landscapes  
Processes to create distinctive  
landforms- waterfalls  
How climate affects river  
landscapes

**SUMMER  
3:1**

**Paper 2 – UK Geographical  
Issues- The UK's physical  
landscape.- Coastal change  
and conflict**  
Human and physical activities  
Coastal flooding  
Coastal management  
Challenges of coastal landscape

**SPRING  
2:2**

**SPRING  
2:1**

**Paper 2 – UK Geographical Issues-  
The UK's physical landscape.- Coastal  
change and conflict**  
Physical processes  
Erosion  
Transportation  
Deposition  
Landforms due to erosion – cave arch,  
stack and stump  
Landforms due to deposition- spit,  
bar, bay , tombolo

**Paper 3 – People and the  
environment issues  
People and the Biosphere**  
Biome characteristics  
Factors affecting biomes  
Biosphere as a life support  
system  
Theories of population

**AUTUMN  
1:2**

**AUTUMN  
1:1**

**Paper 3 – People and  
the environment issues  
Forests under threat.**  
Characteristics of  
TRF/Taiga  
Threats to TRF/Taiga  
How and why forests  
should be protected.

## OUR LEARNING JOURNEY

# Geography KS4: Year 10

CARDINAL  
NEWMAN  
CATHOLIC SCHOOL

## Paper 2- UK Geographical Investigations- Fieldwork

Create enquiry questions, Data collection methods, data presentation skills, use secondary data sources, Analysis and report writing skills

SUMMER  
3:2

## Paper 2 – The UK's Evolving Human Landscape- Birmingham

Population  
Migration  
How Birmingham is changing  
Regeneration  
Challenges and opportunities in cities.  
Population pyramids  
OS map skills  
Statistical data

SUMMER  
3:1

SPRING  
2:2

## Paper 1 – Global geographical issues- Urbanising world

Understand why and how the world is urbanising  
Why cities change over time  
Case study – Mumbai  
Graphs and satellite images  
Quantitative and qualitative data skills

## Paper 1 –Global geographical issues – Hazardous Earth

The world's climate system  
Natural causes of climate change  
Human causes  
Tropical cyclones/earthquakes and volcanoes  
Structure of the earth  
Impacts of hazards

SPRING  
2:1

## Paper 1- Global Geographical Issues- Development Dynamics

Globalisation and changes in the economy  
Impacts of rapid change on India  
Demographics  
Population pyramids

AUTUMN  
1:2

AUTUMN  
1:1

## Paper 1 Global Geographical Issues- Development Dynamics

Key definitions of development  
Interpretation of measures of development  
Global theories  
Case study India  
Globalisation  
Graph skills

# OUR LEARNING JOURNEY

# Geography KS4: Year 11

CARDINAL  
NEWMAN  
CATHOLIC SCHOOL

## Exams KS4

**Paper 1-** Hazards, development and urbanising world  
**Paper 2-** Coast, Rivers and fieldwork  
**Paper 3 -** DME Forests, biosphere and Energy

SUMMER  
3:2

## Revision

Paper 3 – People and the environment issues  
CGP guides  
Revision booklets  
Mind maps  
Keyword quiz  
Past papers

SUMMER  
3:1

## Revision

Paper 2 UK geographical issues  
CGP Revision guides  
Case study booklets  
TAKE 5 Revision sheets

SPRING  
2:2

SPRING  
2:1

## Revision

Paper 1 – Global geographical issues  
CGP Revision guide  
Revision booklets

## Paper 3 – DME practice

Decision making skills  
Exam skills  
Data extraction skills

AUTUMN  
1:2

AUTUMN  
1:1

## Paper 3 – People and the Environment- Consuming energy resources

Classify energy resources  
The importance of energy  
Calculating carbon footprints  
Access to energy  
Unequal world  
Map skills  
Environmental impact  
Changing attitudes to energy

# OUR LEARNING JOURNEY
