The human papilloma virus (HPV) vaccine, helps to protect both boys and girls from being infected with the virus (HPV) which increases the risk of developing some cancers later in life. HPV related cancers, include,

- Cervical cancer.
- Some mouth and throat (head and neck) cancers.
- Some cancers of the anal and genital areas.
- It also helps protect against genital warts.

The above link will give you access to:

- MORE INFORMATION ABOUT THE HPV vaccine.
- A CONSENT FORM FOR YOUR CHILD
- POST VACCINATION ADVICE

PLEASE READ ALL OF THE INFORMATION ON THE LINK BEFORE MOVING TO THE CONSENT DECLARATION LINK. BY SELECTING "CONTINUE" YOU WILL BE GUIDED TO THE ELECTRONIC CONSENT

FORM WHICH REQUIRES COMPLETION TO ADVISE WHETHER YOU CONSENT OR WISH TO DECLINE THE HPV VACCINATION FOR YOUR CHILD.

This immunisation programme consists of 2 injections given within 24 months. The 1st dose is usually given in year 8, the 2nd dose generally in year 9. **It is very important your child completes the course.**

If you do not consent for your child to have the immunisation, we ask that you please still complete the consent form to tell us your reason/s you do not wish your child to receive the HPV vaccination. This can be beneficial and help us understand Parent's views on immunisations and to continue to improve our service.

Parental Responsibility

Consent must be given by someone who has parental responsibility (PR) for the child. PR is not automatically granted for the care of a child e.g. a step parent. PR is held by the birth mother, a father who is named on the birth certificate or mothers and/or fathers who had jointly adopted a child. If you are a legal guardian or a foster carer for a child, you should have either a special guardianship order (SGO) or the local authority will hold a full/interim care order (FCO/ICO). In the case of a consent form not being returned, young people under the age of 16 years may give consent if assessed competent to do so.

Post Vaccination We will ask the school to send an email to remind parents that we have been in school that day and informing you of some of the possible side effects that may occur. This information is important during this time of COVID as your child may develop a temperature post vaccination, this is normal. Advice will be available of how to seek further help or support should this be required.

Sharing Personal Information (Our responsibilities to you and your child under the general Data Protection Regulations and Data Protection Act 2018)

We will keep your child's information confidential and only use it to support them getting the best healthcare that they can. With your consent or someone with PR your child's vaccination details will be shared with their GP and the Child Information system (CHIS). CHIS is an electronic active clinical care record for all children.
