## Editing Process

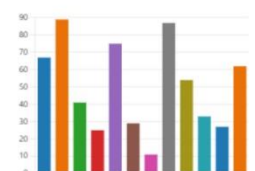

Here at CNCS, we encourage our student body to be very student led and that definitely doesn't stop at the magazine. Each half term, Microsoft Forms quizzes are sent out to each individual year group which enables them to supply content for the student magazine. This includes content such as:

- Favourite teacher and subject
- Dad Jokes, riddles, quizzes
- Sporting content
- Cultural diversity
- Opportunities to show off extra-curricular achievements and much more!

As well as the Forms quiz, students are actively encouraged to provide feedback on the content of the magazine and these views are considered for the next issue of the magazine. Students can also submit longer content for the magazine on our dedicated email address: [newman.news@cncs.school](mailto:newman.news@cncs.school).

Once the content has been submitted, the editing team review submissions and begin to edit on Canva. This is a very accessible website with student friendly software.

### **Distribution**

The magazine is distributed in several ways to our student body. We promote the sale of the magazine in tutor time and is on sale during social times for students to purchase (25p). Students can also access free copies of the magazine in the Library, as well as in their tutor rooms.

As well as print copies, we distribute the magazine via email to all students and promote this on our social media sites too.

We are very proud of our student led magazine!

Please email [emily.cunningham@cncs.school](mailto:emily.cunningham@cncs.school) for any questions/suggestions.
