27 th March	Contingency plan for any lessons missed

These controlled assessments contribute towards 60% of your child's overall grade and will take place during their usual BTEC Health and Social Care lessons.

This series of assessments are for Component 1: Human Lifespan & Development. This involves four tasks that must be completed.

During the assessment, your child will not have access to the internet or revision guides. However, students are permitted to use their class notes that they have prepared for each of the tasks. Students will be provided with additional materials ahead of half-term to support with preparation for these assessments.

Students must be in attendance for these assessments. They will then begin preparing for the next round of controlled assessments which will focus on Component 2: Health and Social Care Services & Values.

We would appreciate your full support in ensuring your child is in attendance for the specified dates and that they are readily prepared with the suitable resources to complete the assessment.

If there are any barriers to your child completing these assessments, please do get in touch so we can put support in place.

Yours faithfully,

Ms E Donohue
Lead teacher of Health and Social Care

Ms E O'Connor
Headteacher
