We hope you are well at this time

We are writing to share our concerns regarding your child's current progress in A Level Mathematics.

Following a review of your child's assessment data from the end of Year 12, alongside the recent Year 13 baseline assessment, we have identified that they may be at risk of not achieving their target grade in mathematics. As your child begins to plan for the next stage of their education and career, a strong grade in A Level Mathematics could play a crucial role in university applications and future opportunities.

To help them reach their full potential, we are implementing several targeted support measures:

- **Weekly intervention class on Fridays from 8:20–9:00 AM**
- **Additional maths support sessions on Thursdays from 3:00–4:00 PM**
- **Fortnightly extended homework tasks**, marked by a teacher and returned with specific, actionable feedback

We expect this work to be completed to a high standard and submitted on time every two weeks.

We are committed to supporting our A level Maths students and working closely with you throughout the year to help them achieve the best possible outcome in mathematics.

Please don't hesitate to contact me if you have any questions or would like to discuss this further.

Yours sincerely

**Mr A Heyes**  
**Associate Assistant Headteacher**

**Ms E O'Connor**  
**Headteacher**
